

The Modern Home Company | Interior Furniture, Lighting, Carpets and Accessories

MHCO. The Modern Home Company.

A new venture, a new showroom and show-stopping new interior ranges.

With furniture from Paola Lenti, Gervasoni 1882, Softline and Piet Boon, lighting from Oluce, Verpan and Henrik Pederson, carpets and accessories, The Modern Home Company's collections are sufficiently varied to suit any residential, hospitality or corporate interior. But here's the really clever bit. All collections have been carefully selected to integrate with each other. Keep it simple, or mix it up. Your choice.

High quality, elegant, sophisticated, yet with the touch of playfulness for which we are so well known, The Modern Home Company's style reflects that of its well-respected sister company, The Modern Garden Company. So for extraordinary product ranges (nearly all of which are exclusive to us), supported by our industry benchmark standards of both before and after-sales care, visit The Modern Home Company's new showroom – next door to The Modern Garden Company in Green Point, Cape Town. Opening July 2010.
